

Environment Policy Statement

Geoquip Marine is committed to the protection of the environment and promotion of sustainable development. We endeavour to minimise the environmental impact of our business activities and to influence those we work with to bring about positive environmental benefit at both a local and a global level.

Ensuring that the firm meets the commitments in this Environmental Policy Statement is the responsibility of each Director, Manager and Head of department.

As a Company we will:

- Endeavour to prevent pollution, reduce waste, encourage recycling, reduce energy consumption, reduce noise pollution and reduce the use of non-renewables through our business decisions, operating procedures and consulting activity.
- Monitor and examine our environmental performance and implement continual improvement initiatives.
- Meet the requirements of all relevant environmental legislation.
- Develop annually environmental SMART objectives.

Within the Company we will:

- Provide training and encouragement to our employees to develop environmentally responsible behaviour and awareness.
- Set SMART environmental objectives with a view to reducing the environmental impact of our business activities.

As a firm of Engineering Professionals we will:

- Seek to develop a holistic approach to environmental issues within our business by working with, and influencing our clients, partners, suppliers and contractors and all stakeholders interested in Geoquip Marine.
- Utilise strategies to reduce the environmental impact of investigation and construction projects with regards to our consultations in design, engineering and strategic advice.

All staff are responsible for the implementation of this policy both by the way that they carry out their day to day activities and by the way that they plan and execute work packages.
