

Vacancy – Offshore Project Manager (OPM)

We are Pioneers and Innovators!

This is an exciting opportunity to join our dynamic and expanding Geoquip Team. The Geoquip Marine Group specialises in geotechnical site investigations for marine engineering and scientific research projects.

With over 30 years of experience in offshore data acquisition we strive to be the leader in safely delivering reliable geotechnical data for our customers.

We are committed to providing our employees a stable work environment with equal opportunities for learning as well as personal growth and **we encourage creativity and innovation**. Great importance is also placed on maintaining the health, safety and welfare of employees.

Above all, employees are provided the same concern, respect, and caring attitude within the organization as the company owes its success to each individual employee.

Job Summary

The Offshore Project Manager (OPM) will be primarily based offshore and will be responsible for Project Execution but will also be office-based to aid in the pre-project documentation leading up to execution. The OPM is responsible for safety of the team and provides the direction and leadership required to keep the project running smoothly and in line with the contractual requirements.

Functions and duties

- Pre-mobilisation preparations for fieldwork
- On site leadership and management of geotechnical investigations
- Client interface during project fieldwork
- Implementation of contract and ensuring work performed meets specifications
- Issue of field generated operations and geotechnical reports
- Performance or approval of field based preliminary engineering analyses (if applicable)
- Deal with day to day health and safety responsibilities including chairing meetings, implementing required training and checking on permits to work, toolbox meetings, TOFS, OBS-card tracking
- To lead by example regarding all aspects of HSE ensuring all crew are empowered and aware of the company procedures and policies
- Responsible for the quality of service to internal and external clients including interested parties.
- Any other duties deemed necessary, which are within the bounds of the incumbent's competence and function.

Qualifications and Experience

Experience &/or recognised qualification with a minimum of 5 years experience in a similar role offshore.

We offer a competitive salary and benefits dependant on experience.
