

Vacancy – Project Manager

We are Pioneers and Innovators!

This is an exciting opportunity to join our dynamic and expanding team in the Bristol office. The Geoquip Marine Group specialises in geotechnical site investigations for marine engineering and scientific research projects.

With over 30 years of experience in offshore data acquisition we strive to be the leader in safely delivering reliable geotechnical data for our customers.

We are committed to providing our employees a stable work environment with equal opportunities for learning as well as personal growth and **we encourage creativity and innovation**. Great importance is also placed on maintaining the health, safety and welfare of employees.

Above all, employees are provided the same concern, respect, and caring attitude within the organization as the company owes its success to each individual employee.

Job Summary

The main objective of the Project Manager is to manage projects assigned to him/her. The position is office based with visits to the field operations as necessary, primarily during mobilisations to promote core HSE values and highlight contractual requirements to all internal parties.

Functions and duties

The duties assigned to the Project Manager are varied, but will include:

- Responsible for all aspects of a geotechnical contract including client liaison, planning and scheduling, commercial control, staffing, supervision of execution.
- Subcontract management including soil testing laboratories and freelance personnel.
- Approval of engineering and issuing of reports including bearing capacity calculations, piled foundation design, liquefaction assessment and pile driving analyses.
- Responsible for the quality of service to internal and external clients including interested parties.
- Any other duties deemed necessary, which are within the bounds of the incumbent's competence and function.

Qualifications and Experience

- Recognised qualification(s) in Engineering and or Management.
- 5 years' experience.

We offer a competitive salary and benefits dependant on experience.
