

## Vacancy – Laboratory Technician

### We are Pioneers and Innovators!

This is an exciting opportunity to join our dynamic and expanding team in Bristol. The Geoquip Marine Group specialises in geotechnical site investigations for marine engineering and scientific research projects.

With over 30 years of experience in offshore data acquisition we strive to be the leader in safely delivering reliable geotechnical data for our customers.

We are committed to providing our employees a stable work environment with equal opportunities for learning as well as personal growth and **we encourage creativity and innovation**. Great importance is also placed on maintaining the health, safety and welfare of employees.

Above all, employees are provided the same concern, respect, and caring attitude within the organization as the company owes its success to each individual employee.

### Job Summary

The Laboratory Technician is responsible for undertaking soil testing as instructed based on the approved lab schedules and under the guidance of the Laboratory Manager.

### Functions and duties

- Participate in any health and safety talks, meetings or training.
- Prepare, test and analyse soil samples to determine their content and characteristics, using laboratory tools or testing equipment – testing may include but not be limited to:
  - moisture contents.
  - Plastic and liquid limit testing
  - Particle Size Distribution tests
  - Density tests
- Record and process test data.
- Perform and record daily and weekly equipment checks.
- Ensure timely execution of laboratory tests.
- Any other duties deemed necessary, which are within the bounds of the incumbent's competence and function.

### Qualifications and Experience

Experience in a similar role is desirable, but not essential as training will be provided.

We offer a competitive salary and benefits dependant on experience.
