

Vacancy – Senior Laboratory Technician

We have an opportunity for a Senior Laboratory Technician in our laboratory located next to the beautiful Avon River in Bristol. You will become part of our small, friendly soils testing laboratory team and provide essential support for undertaking soil testing.

We are committed to providing our employees a stable work environment with equal opportunities for learning as well as personal growth and **we encourage creativity and innovation**. Great importance is also placed on maintaining the health, safety and welfare of employees.

Above all, employees are provided the same concern, respect, and caring attitude within the organization as the company owes its success to each individual employee.

Job Summary

The Senior Laboratory Technician is responsible for undertaking soil testing as instructed based on the approved lab schedules and under the guidance of the Laboratory Manager. Additionally in the senior role, duties will include supervising junior colleagues, training, calibrations and creating/reviewing formal documents when required.

Functions and duties

The duties assigned to the Senior Laboratory Technician are varied, but will include:

- Participate in any health and safety talks, meetings, or training.
- Prepare, test, and analyse soil samples to determine their content and characteristics, using laboratory tools or testing equipment – testing may include but not be limited to
 - Triaxial tests.
 - Consolidation tests.
 - Shear tests.
- Record and process test data
- Perform and record daily and weekly equipment checks.
- Ensure timely execution of laboratory tests.
- Supervision of junior colleagues.
- Training and Auditing.
- Producing/reviewing formal quality documents.
- Monitoring industry requirements for expansion or improvements in lab testing methods, liaising with the Laboratory Manager to keep up with technological advances.
- Checking/approving results and final reports in absence of Lab manager/Assistant Lab Manager
- Liaising with clients/suppliers when required.
- Any other duties deemed necessary, which are within the bounds of the incumbent's competence and function.

Qualifications and Experience

Experience in a similar role is essential. Experience in a supervisory role is desirable.

We offer a competitive salary and benefits dependant on experience.

SAFELY DELIVERING RELIABLE DATA.
