Notes to the Consolidated Financial Statements

1. General Information

Geoquip Marine Holding AG, hereinafter to be referred to as "the Company" is a limited liability company incorporated in Switzerland with its registered office located at Multergasse 1-3, St. Gallen. The Company is the ultimate parent of the group.

The Company and its subsidiaries (together, the "Group" or "Geoquip") are primarily engaged in providing offshore geotechnical solutions to the energy and infrastructure sectors worldwide.

The consolidated financial statements of Geoquip Marine Holding AG and its subsidiaries (collectively, Geoquip or the Group) for the quarters ended 30 June 2025 and 30 September 2025 were authorised internally by management.

2. Basis of preparation and other significant accounting policies

2.1. Basis of Preparation

These consolidated interim accounts of Geoquip Marine Holding AG and its subsidiaries have been prepared based on unaudited management accounts.

The consolidated statement of financial performance is presented based on cost classification by nature which is the presentation used by management to measure the Group's performance.

The consolidated financial statements have been prepared on the basis that the Group will continue to operate as a going concern.

2.2. Basis of Consolidation

The consolidated financial statements include the financial statements of Geoquip Marine Holding AG and all entities controlled by the Company as of 30 June 2025 and 30 September 2025. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group and are deconsolidated from the date control ceases.

Intercompany balances, transactions, income, and expenses are eliminated in full upon consolidation.

2.3. Group Structure and Investments in Subsidiaries

The Group comprises Geoquip Marine Holding AG and the following fully consolidated subsidiaries.

Name	Country	2025 Q3	2025 Q2	2025 Q1	Activity
Geoquip Marine Holding AG	Switzerland	100%	100%	100%	a)
Geoquip Marine Asset AG	Switzerland	100%	100%	100%	b)
Geoquip Marine Operations AG	Switzerland	100%	100%	100%	c)
Geoquip Marine Services PLC	United Kingdom	100%	100%	100%	d)
Geoquip Marine Nigeria Ltd *	Nigeria	100%	100%	100%	e)
Geoquip Marine USA Inc.	USA	100%	100%	100%	e)

Geoquip Marine Cyprus Ltd	Cyprus	100%	100%	100%	a)
Geoquip Marine Shipmanagement Ltd	Cyprus	100%	100%		b)
Geoquip Marine RKN Ltd *	Korea	100%			c)

^{*} Geoquip Marine Nigeria Ltd and Geoquip Marine RKN Ltd are fully consolidated, but the registered shareholdings are 89% for Geoquip Marine Nigeria Ltd and 49% for Geoquip Marine RKN Ltd.

All subsidiaries are either wholly owned and controlled or controlled by the Group.

There were no changes in the Group's scope of consolidation because of the transition to IFRS.

The primary activities are as follows:

- a) Holding
- b) Ownership and rental of vessels and drilling equipment
- c) Operating and rental of geotechnical, geophysical, geoscientific and met-ocean equipment and installations, scientific research, management of vessels
- d) Engineering related scientific and technical consulting activities
- e) Provision of office and commercial agency services

3. Management Comments

3.1. Performance

During the third quarter of 2025, Geoquip Marine maintained a steady operational and financial performance. Vessel utilization remained consistent with Q2 levels, with improvements in project execution efficiency and downtime management. The Group's Q3 EBITDA performance continues to be solid.

Backlog levels for 2025 have normalized following a period of record highs earlier in the year, reflecting both project completions and some scope reductions on key offshore wind contracts. However, backlog stabilized during the last quarter, with new project awards compensating for work executed. Revenue realization remained robust across our fleet, supported by continued operations, particularly in Europe.

Operationally, the Geoquip Silvretta completed its first full operational quarter post-refurbishment, contributing to increased capacity and vessel flexibility.

On the capital expenditure side, the Group remains disciplined. Year-to-date capex is significantly reduced compared to original plans for 2025, primarily due to scope reductions and deferrals in expansionary investments. The focus on essential maintenance and targeted upgrades has enabled savings without compromising operational readiness.

3.2. Outlook

The offshore wind market has during 2025 entered a period of correction, with short-term project delays and funding uncertainties affecting immediate demand for our services. However, the medium- and long-term outlook remains robust, underpinned by global energy transition targets, strong government support for renewable infrastructure and a large backlog of awarded offshore wind projects where necessary geotechnical surveys have not been performed. We remain confident that the structural demand for offshore wind geotechnical services will in the future recover and expand significantly beyond 2025.

In parallel, we are experiencing continued steady and healthy demand from our oil and gas clients. This segment has provided a more stable revenue stream during the temporary slowdown in offshore wind and may lead to a shift in our short-term revenue mix, depending on market conditions as we enter 2026.

This dual-market presence reinforces our strategic flexibility, allowing Geoquip Marine to balance its portfolio and adapt to evolving sector dynamics.

While the market for geotechnical services for offshore wind has softened from its record highs our proactive efforts to secure additional work for the second half of 2025 has been successful and we are fully booked for the remaining part of 2025. The Group remains confident in its ability to maintain financial discipline and capitalize on its diversified asset base and global presence to deliver growth in both revenue and EBITDA for 2025 vs. 2024.

The focus going into Q4 and early 2026 will be on securing backlog for 2026. For the first half of 2026 Geoquip expects the current market environment to prevail. This means slower activity level in offshore wind than what we experienced in the first half of 2025, while oil and gas remains solid and steady.

3.3. QHSE

Geoquip Marine continued to strengthen its QHSE performance and culture through Q3 2025, building on the foundation established over several years. Leadership visibility and engagement at project sites were increased in alignment with the general theme to emphasize proactive learning from incidents and near misses.

Despite these successes, challenges remain. During Q3 the Group recorded several minor injuries, one loss of primary containment (LOPC) event and high potential incidents underlining the need for continuous vigilance. As of 30 September 2025, we recorded Total Recordable Injury Rate (TRIR) of (0.89) vs. our target of (0.3), High Potential Near Misses (HPNM) of (6) vs. target of (0), while Lost Time Incidents (LTIs) were sitting at (0.22) in line with our target. We continue to work hard to reverse the trend we have seen in our QHSE statistics over the last few quarters. We remain committed to a zero-harm culture and continuous improvement across all dimensions of QHSE.

Q4 priorities include completing the ISO 9001 management review, implementing the PTW and SIMOPS improvement plan, and enhancing emergency response and document control frameworks. The Group remains firmly committed to a zero-harm culture and continuous improvement across all QHSE dimensions.

3.4. Covenant compliance

As of the end of the third quarter of 2025, Geoquip Marine continues to maintain full compliance with all financial covenants. The leverage covenant Net Debt / EBITDA (based on SCO) stood at (1.92) which is well below the set threshold of 3 and our liquidity (USD 32.8m) was well above the covenant threshold (USD 10.0m).
